

Join the Global Crystallography and Structural Science Community at PCCr4 in Algiers, Algeria

From 25 to 30 October 2025

**Theme: LET'S UNITE OUR EFFORTS FOR THE DEVELOPMENT OF
CRYSTALLOGRAPHY AND STRUCTURAL SCIENCE TO MEET THE
NEW SOCIETAL CHALLENGES OF THE AFRICAN CONTINENT**

The Fourth Pan-African Conference on Crystallography (PCCr4), to be held in Algiers, Algeria, in 2025, represents a key event for crystallography in Africa. Building on previous conferences in Cameroon (2016), Ghana (2019), and Kenya (2023), PCCr4 will bring together researchers, scientists, and students from across the continent and beyond to share knowledge, discuss recent advancements, and explore diverse applications of crystallography and structural science.

Conference topics

- Crystal engineering and structural chemistry
- Inorganic materials
- Crystallography for life sciences
- Large facilities and time-resolved crystallography
- Art, culture heritage and crystallography
- Crystal growth and functional materials
- Artificial intelligence and Crystallography databases

Invited speakers

- Maguy Jaber (France)
- Simon Billinge (USA)
- Panče Naumov (United Arab Emirates)
- Anna Krawczuk (Germany)
- Silvia Onesti (Italy)
- Sekazi Mitingwa (USA)
- Santiago Garcia - Granda (Spain)

The deadline for scholarship and abstract submissions is August 31, 2025

The conference will take
place in AZ Hotel Zeralda

Social activities
Gala Dinner in Tipaza
Guided tour of the Casbah
